(c) and (d) Concerns have been received by the Central Government from several quarters regarding the serious problem of infilitration of the nationals of Bangladesh into the country, in particular into the States of the North East. The census figures do indicate a large increase in the population in some of the States of the North East which is attributable largely to the influx of the nationals of Bangladesh. The Central Government has initiated several measures to prevent infiltration which include strengthening of Border Security Force, implementation of Mobile Task Force (MTF)/Prevention of Infiltration of Foreigners (PIF) Schemes, construction of border roads and fence, issue of identity cards, setting up of Tribunals etc. The matter has been taken up with the Government of Bangladesh and some modalities have been arrived at for the Border Security Force to hand over certain categories of illegal migrants/infiltrators to Bangladesh Rifles.
